Intermountain Health

With locations in seven states and additional operations across the western U.S., Intermountain is a nonprofit system of **33 hospitals, 385 clinics**, a medical group with **3,900 employed physicians** and **advanced practice providers**, a health plan division called **SelectHealth**, and additional integrated health services.

Our Nevada Medical Group includes over 60 clinics, 30+ of which are award-winning myGeneration Clinics recognized for providing exceptional primary care for seniors.

With our extended provider network, we deliver patient-centered primary, specialty, and urgent care services to approximately 350,000 Southern Nevadans in Clark and Nye counties.

When you choose our award-winning myGeneration Clinics, you get a team that specializes in every aspect of your care and a complete suite of personal services to help you stay healthy.

Voted best senior-focused healthcare

Prompt appointments for new and current patients

If you're new to Intermountain, you can expect to see a provider promptly to get your care going. And if you're a current patient, scheduling your appointment will be as easy as ever.

Same day care for urgent health concerns

We're here for you day and night with many ways to help. Start feeling better, faster, with priority access to your care team through an after-hours nurse answering service and virtual, in-person, and in-home care.

Twice the average time with your doctor and care team

You'll have the opportunity to build a relationship with your care team, talk about your health, get answers to your questions, and understand the steps you can take to reach your health goals.

Better access to specialists

Access over 1,500 specialists through your primary care provider, including Intermountain staff experts to help you manage common conditions such as diabetes, COPD, and heart disease. Our dedicated referrals team works with your insurance plan to process paperwork and provide status updates.

Helpful care managers and health coaches

From regular screening reminders to health education and insurance questions, these healthcare advocates help you navigate the complex healthcare system.

A whole care team looking out for the "whole you"

Your primary care doctor leads your team of nurses, specialists, hospital providers, and more. Your Nurse Care Manager provides personal attention and guidance — explaining health conditions and treatment plans, reminding you about preventive screenings and exams, and giving guidance and support along the way.

Making it easier to get the care you need

Have a non-urgent health issue or need a follow-up visit? Get access to expert, specialized care from the comfort of your own home – including remote symptom monitoring for eligible patients with a medical necessity. Your care team can even help coordinate transportation for medical needs, such as medical appointments, dialysis treatments, pharmacy visits, and more.**

**Transportation and nutrition benefits are not included with all plans. Please check with your plan for more information on details of your benefits coverage.

Primary Care

Comprehensive healthcare for adults.

Our caring physicians and advanced care practitioners are dedicated to listening to your health concerns, addressing your individual needs, providing preventive medicine, and working with you to improve your health at every age and stage.

Services we offer:

- Screenings for common health problems
- Vaccines and immunizations
- Managing chronic conditions
- Treating minor illnesses and injuries

Chronic disease management:

- Asthma
- Diabetes
- High cholesterol
- Hypertension
- Headaches
- Digestive conditions

Best men's health

InstaCare

Get in. Get out. Get better.

When you need quick care in non-emergency situations, InstaCare urgent care clinics are a great first stop. Our InstaCare locations are certified by the Urgent Care Association (UCA) for meeting nationally standardized criteria for patient access and treatment.

Your visit will often take 60 minutes or less, providing you access to expert care that meets your needs while avoiding long wait times and costly visit fees at the ER.

Our InstaCare teams treat urgent but non-life-threatening conditions for patients of all ages, including:

- Urinary tract infection
- Flu and common cold
- Dizziness and giddiness
- Headache
- Nausea and vomiting
- Diarrhea and dehydration
- Sinus infection
- Back pain
- Strains and sprains
- Broken bones
- Lacerations

Pediatrics

Kid-friendly care for every milestone.

From keeping them healthy through regular wellness checks to managing those early morning fevers, your commitment deserves an equally important one from your provider. That's why we ensure quick, convenient care for your little ones through extended appointment availability, short notice scheduling, and several easily accessible locations throughout Southern Nevada.

Services we offer:

- Baby basics classes
- Newborn circumcisions
- Newborn visits
- Immunizations and injections
- ADHD/ADD management
- Minor lacerations
- Wellness visits
- Sports physicals

Women's Health

Specialized care for every woman.

Our caring, dedicated team of health professionals is committed to delivering comprehensive care to women of all ages and from all walks of life. We put your concerns first because we know that good medicine begins with good listening. Combined with expert knowledge and cutting-edge technology, you'll find that our practice is a unique fusion of science and heart.

Services we offer:

- Obstetrical care
- Comprehensive gynecological care
- Multilingual care teams

Best women's clinic

Cardiology

Patient care with heart.

We know that few things are as important as your heart health, and our goal is to provide the most thorough, compassionate care available to help you protect it. Our award-winning team focuses on prompt diagnosis, treatment, and management of heart issues, including interventional technologies such as cardiac stent procedures and pacemaker implantation.

Services we offer:

- Abdominal aortic aneurysm repair
- Atrial fibrillation
- Cardiovascular disease management
- Carotid ultrasonography
- Coronary angioplasty/stenting
- Echocardiography
- Heart failure program
- Pacemakers/ICDs
- Peripheral artery disease management
- Rhythm management
- Transcatheter aortic valve replacement (TAVR)
- Women's cardiovascular disease management

Endocrinology

Expert care for endocrine and metabolic needs.

Understanding what it takes to maintain metabolic balance is the key to managing chronic conditions such as diabetes, thyroid issues, cholesterol problems, osteoporosis, endocrine disorders and metabolic disorders.

Count on our experienced team of endocrinologists to diagnose your condition and create personalized treatment plans. You'll receive comprehensive education and support along the way to help you attain – and sustain – a healthier lifestyle.

Services we offer:

- Endocrine and metabolic disorder treatment
- Certified diabetes education
- Diabetes treatment
- Thyroid disorder treatment
- Osteoporosis treatment
- In-clinic infusions

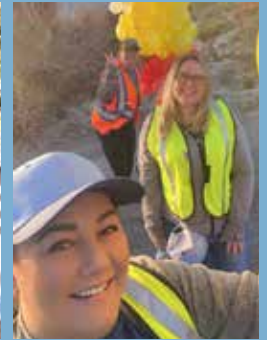

Hematology/Oncology

Customized, compassionate care.

Quality treatment for blood disorders and genetic disease requires cutting edge medicine and care-oriented professionals. Our hematology and oncology physicians make both a top priority to deliver compassionate patient care supported by innovative and effective treatment options.

Services we offer:

- Clinical hematology
- Medical oncology
- Chemotherapy
- Immunotherapy
- On-site laboratory services
- On-site PET/CT scanning
- Physician dispensing pharmacy services

Giving back to our community

Our commitment to improving the health and well-being of our community extends far beyond our exam rooms.

We support local not-for-profit agencies that provide essential community health services through corporate giving initiatives, and our caregivers volunteer hundreds of service hours each year at organizations such as Three Square, Project 150, SafeNest, and Ronald McDonald House, to name a few.
